DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

2. Claims 1-7 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reed or Koller or Pisors et al. or Baer et al. or Evins, IV or Haumesser or Greer et al. (US 2391642, 4274957, 4962847, 5016708, 5080781, 5928520, 6158515) in view of Jackson (US Pub 2004/0050768).

Reed, Koller, Pisors et al., Baer et al., Evins, IV, Haumesser and Greer et al. all disclose the invention substantially as claimed. However, they all are silent about their squeegee rollers being attached to the inside of the casing using brackets. Jackson teaches squeegee rollers being attached to the inside of a housing using brackets (see paragraph 0035). It would have been considered obvious to one of ordinary skill in the art to modify either Reed or Koller or Pisors et al. or Baer et al. or Evins, IV or Haumesser or Greer et al. by attaching their squeegee rollers to the inside of the casing as taught by Jackson since such an arrangement allows for the entire apparatus to be enclosed thus protecting it.
